General Orientation

A formal orientation program for Austin-based students is scheduled for Friday, June 26th at 1:00PM in the Clinical Education Center at Brackenridge Hospital, Room C2.127. Orientation will last until 5:00 PM, and attendance is *required*. Austin-based students should monitor their e-mail for additional information.

Seton ID badge

Bring your driver's license and \$10 cash/check to orientation for issuance of a Seton badge. When you return your badge at the end of your rotation, your \$10 will be refunded. All student badges are coded to allow 24-hour access to the Medical Library (CEC Room C2.303), the Professional Office Building, and the Brackenridge Annex Building. For additional access, please contact the Office of Regional Medical Education.

Parking

Students working at Brackenridge can pay \$10 (cash/check) per month to park at the Clinical Education Center at Brackenridge. Your badge will be coded to allow entry to the garage. This fee will also cover parking at Seton Medical Center, but you will need to ask the Parking/Security Office to code your badge for that parking lot.

Students working at Dell Children's Medical Center, Seton Shoal Creek, and Seton Northwest may park for free.

Pager

You will need to purchase statewide service on your UTMB pager before coming to Austin. While on clinical rotations, you are responsible for ensuring that your pager is functioning and accessible at all times.

Computer Accounts

You will be provided a username and password for the following accounts:

Seton Network Account (Windows) – All computers are on the Seton Network and require a Seton username and password to use them.

Note: Computers at Austin Women's Hospital are on the UTMB network, so your UTMB username and password can be used there.

Compass Account (to view medical records)

PACS Account (to view radiology records)

For Seton password resets, call 324-1675 (X41675 from the hospital). For verification purposes, they will ask you for the last four digits of your SSN; *give them the last four digits of your PID number instead.*

For UTMB password resets, call 409-772-5200.

PID Number

- UTMB requires the use of PID numbers instead of social security numbers (or any part of the social security number) for coding, identification and/or password

purposes. If you would like to know your PID number, please contact the Office of Regional Medical Education in Austin.
